# Stren Original® THE STANDARD OF DEPENDABILITY

No other line is as instantly recognizable or widely acclaimed as Stren Original in the distinctive purple box. It casts effortlessly, ties a great knot and offers the perfect balance of strength, sensitivity, suppleness and abrasion resistance to give fresh and saltwater anglers the upper hand in any fishing situation.

- UV GUARD extends the lifetime of your line
- Superior knot and tensile strength to land big fish
- Tough and abrasion resistant
- Low memory for easy casting and handling

 **UV GUARD**  
EXTENDS THE LIFETIME  
OF YOUR LINE

## Stren® Magnathin® *AMAZINGLY THIN, ASTONISHINGLY STRONG*

Natural lure action and low visibility are two features that position Stren MagnaThin as a top choice for clear water or line-wary gamefish, yet the defining feature of this remarkable line is its exceptional strength-to-diameter ratio. Anglers can drop down a size or two without sacrificing strength. When strength, thin diameter and casting accuracy count, knowledgeable anglers count on Stren MagnaThin.

- Smaller diameter for less water drag, faster sinking and improved lure action
- Easy to control for long, smooth casts
- Low stretch

THE STANDARD OF DEPENDABILITY SINCE 1958

## Stren® Power Knot *TIE WITH CONFIDENCE*

Power Knot handles great and can hold virtually any knot. Line failure usually occurs at the knot. Stren Power Knot's unique formulation solves that problem. This line allows for less-than-perfect knots to hold strong and great knots to perform even better. Use basic or complicated knots without worry because this line doesn't require a lot of fuss. Tie your knot and start fishing.

- Self-lubricating technology reduces friction for no-fail knots
- Low memory for easy casting and handling
- Easy to use on spinning and casting reels

**Stren® High Impact** *EXTREME SHOCK RESISTANCE FOR HARD-HITTING SPECIES*

Extremely durable and well suited to every saltwater pursuit from bay and coastal fishing to blue water. With a great combination of strength, durability and impact resistance, it delivers the type of performance that serious coastal and offshore anglers demand on their casting, spinning and trolling reels.

- Shock resistant for fighting line-punishing gamefish
- Saltwater tough for all coastal and offshore fishing

## Stren® Catfish Mono *NO NONSENSE FISHING LINE DESIGNED FOR RESULTS*

Stren Catfish Mono is tough, dependable, and durable. This is a line you don't have to pamper, even under typical catfishing conditions where rocks and other obstructions provide competition.

- Strong for lifting big catfish out of their holes
- Resists abrasion from rocks and other structure
- Glows in daylight and under black light

**Stren® Crappie Mono** *DESIGNED WITH PURPOSE*

Stren Crappie Mono is thin, dependable, and sensitive. This is a line that is strong enough to be fished around thick brush piles, yet so thin it virtually disappears under water. Stren Crappie Mono is designed to help you land those monster slabs.

- Optimized for Crappie
- Small diameter for casting small lures
- Strong and abrasion resistant for fishing thick cover

## Stren® FluoroCast® *THE SMOOTH CASTING FLUOROCARBON*

Don't be fooled by "fluorocarbon coated" imitations, FluoroCast is a true fluorocarbon that casts like a nylon monofilament. The high density line allows lures to run deep and is virtually invisible to fish. Amazingly sensitive, FluoroCast provides excellent knot and shock strength for hard hook sets.

- Stren's most manageable fluorocarbon for easy casting
- Excellent knot and shock strength
- Superb underwater clarity
- Sinks fast for targeting the strike zone

## Stren® Braid *EXTREMELY DURABLE*

Stren Braid is made with Dyneema® PE fibers for unsurpassed strength and performance. An added Glide Coat treatment allows this line to cast smoother and faster while also combating wear and tear. Stren Braid fishing line offers excellent durability and line movement with strength that rivals steel.

- Made with Dyneema® PE fibers for strength and durability
- Glide Coat treatment provides smooth, fast line movement
- Round profile helps prevent line from digging in
- Excellent knot strength

**NEW**

## Stren® Max Cast *SUPERLINE ADVANTAGE, MONO-LIKE FEEL*

New and current superline users alike will love the casting power and high sensitivity of Stren Max Cast. With the “body” of a monofilament and the strength and thinness of a superline, it performs like no other. When letting substantial amounts of line off the reel for applications like distance-casting or deepwater fishing, this low-stretch superline lets you feel every bite. Our proprietary fusing process allows this line to shoot off the guides with ease.

- Impressive casting performance
- Extremely sensitive, even when letting out substantial amounts of line from your reel
- Optimal for use on spinning reels due to its monofilament-like body
