THE BRAID THAT SINKS LIKE A FLUOROCARBON!

- All the attributes of a premium superline - in the 1st true sinking braid!
- More direct line profile from rod tip to bait. Lures run deeper. Low co-efficient of friction for quieter retrieves
- Gore® Performance Fluoropolymer Fiber for density and sinkability
- Highest grade Dyneema® for strength and ultimate sensitivity

FLUORO-BRAID COMBINES THE SINKING PROPERTIES OF A FLUOROCARBON WITH THE STRENGTH AND CASTABILITY OF SPIDERWIRE® BRAIDED FISHING LINES. A BREAKTHROUGH GORE® FLUOROCARBON AND DYNEEMA® FIBER BLEND PROVIDES A MORE DIRECT LINE PROFILE FROM ROD TIP TO LURE. THE RESULT IS LESS SLACK IN YOUR LINE FOR ULTIMATE SENSITIVITY AND FASTER HOOK SETS. THIS LINE IS GREAT FOR POWER CASTING WITH CRANKBAITS, TROLLING WHEN EXTRA LURE DEPTH IS NEEDED, PITCHING SOFTBAITS IN HEAVY COVER AND WINDY DAYS WHEN YOU NEED TO GET YOUR LINE DOWN FAST. ALSO IDEAL FOR SCHOOLING RIGS.
